

Aim:

Write a program to demonstrate constructor class

Source Code:**Student.java**

```
public class Student{
    int x;
    String s;
    public Student(int y,String s1){
        x=y;
        s=s1 ;
        System.out.println(y+" "+s1);
    }
    public static void main(String args[]){
        Student obj = new Student(0,null);
        System.out.println(obj.x+" "+obj.s);
    }
}
```

Execution Results - All test cases have succeeded!

Test Case - 1
User Output
0 null
0 null
