## Aim:

Write a Java code for creating your own exception

## **Source Code:**

```
q224/demo.java
```

```
package q224;
class MyException extends Exception {
   private int ex;
   MyException(int a){
      ex=a;
    public String toString(){
      return "MyException["+ex+"] is less than zero";
    }
}
public class demo{
   static void sum(int a,int b)throws MyException{
      if(a<0)
      throw new MyException(a);
      else
      System.out.println(a+b);
    public static void main(String args[]){
      try{
         sum(-10,10);
      catch(MyException e){
         System.out.println(e);
      }
    }
}
```

## Execution Results - All test cases have succeeded!

## Test Case - 1 User Output MyException[-10] is less than zero
